Itinerary

Day 1. Embarkation in Kangerlussuaq, Greenland.

We arrive to the starting point of our expedition, the town of Kangerlussuaq. Kangerlussuaq is more or less only the airport. Though the Greenland ice cap “knocking at the door” of the town and colourful houses make it a special place.

In the afternoon we welcome you aboard the luxury expedition ship M/V Sea Spirit. Explore the ship and get comfortable in your home away from home for the extraordinary adventure to come. Savor the anticipation of your Arctic dreams coming true as we slip our moorings and sail out of the picturesque fjord.

Day 2-7: Exploration of West Greenland

Though settlements abound in this part of Greenland, unpredictable weather and dearth of docking facilities nevertheless make this a real expedition. As such, our route and exploration opportunities along this coast are heavily dependent on the weather and ice conditions we encounter. Our experienced captain and expedition leader decide the itinerary and continually adjust plans as conditions and opportunities warrant. You can be sure that the best possible advantage will be taken of the circumstances presented to us by Nature in this wild and remote region. Possible sites of exploration include:

Sisimiut – The second-largest town in Greenland boasts a youthful, urban vibe and is also known for adventure sports, especially dog sledding. The Sisimiut Museum offers insight into the local culture and a history of human habitation dating back 4,500 years.

Qeqertarsuaq – Located on volcanic Disko Island, the small town of Qeqertarsuaq enjoys views of basaltic mountains and the huge icebergs of Disko Bay. Founded in 1773 as a whaling station, Qeqertarsuaq is one of the oldest towns in Greenland. Cultural attractions include a distinctive octagonal church called the “Lord’s Ink Pot”. Some hiking options are available in the area: a longer hike to the basalt cliffs and a shorter one to the waterfall.

Uummannaq – Founded in 1763 on the island of the same name, the town of Uummannaq is a hunting and fishing base with a canning factory and a marble quarry. Rising above town is the distinctive 1,170-meter Uummannaq Mountain. Danish and Greenlandic children believe that Santa Claus lives on the island. A Zodiac cruise in Uummannaq fjord reveals a breathtaking scenery around.

Eqip Sermia – This active tidewater glacier is situated in a wild and scenic fjord. In the period after the Second World War, this area functioned as a starting point for expeditions onto the ice cap conducted by the French explorer Paul Emile Victor, whose hut still stands today.

Ilulissat – Formerly called Jakobshavn, the town of Ilulissat is best known for unbelievable quantities of icebergs issuing from the nearby Ilulissat Icefjord, into which one of the world’s fastest moving and most active glaciers calves 46 cubic kilometers of ice annually. Attractions in town include the Inuit Art Museum, which contains a large collection of paintings by Greenlandic, Faroese, and Danish artists.

Itilleq – Located just north of the Arctic Circle, Itilleq (also known as Itivdleg) is a settlement on a small island with about 100 inhabitants. The main trade here is fishing and hunting. The island has no freshwater, so Itilleq has a facility that makes freshwater from seawater.

Day 8: Disembarkation in Kangerlussuaq, Greenland.

After breakfast we say farewell in Kangerlussuaq, the site of Greenland's largest commercial airport.

Pre-departure forms / requirements

Eligibility – There are no specific physical requirements for travel in the Arctic. However we are traveling to the remote region of the world and we are traveling on a ship which, at times, may be in rough seas. Passengers with certain medical/health issues may not be appropriate for this type of expedition and are advised to exercise appropriate caution. Our medical information form lists a number of these conditions.

Pre-departure forms – Prior to boarding, specific passenger information is required not only for passenger safety, but for international reporting regulations. Required information must be completed in the forms provided by Poseidon Expeditions and in our possession at least 60 days prior to departure. Final documents cannot be issued for passengers whose information has not been received.

Passenger Medical Information – We require all passengers to submit basic medical information prior to departure. Upon receipt of that basic medical information, specific physical conditions may necessitate additional documentation from a passenger's physician certifying fitness to travel on a voyage to the Arctic. If additional medical confirmation is requested, boarding will not be allowed absent receipt of that confirmation. Poseidon Expeditions has a pregnancy policy that women are welcome with explicit doctor's permission and having signed a specific waiver. Pregnancy policies of carriers (ship owners, airlines, bus companies, hotels, etc) may also apply. Please note that medical information will, of necessity, be available to designated Poseidon Expeditions staff.

Please note that regardless of general eligibility there may be instances where environmental conditions require a level of fitness/mobility. In these cases individual participation in the landing(s) in question may be restricted by the Captain, Expedition Leader, or ship's doctor.

Travel Insurance – All passengers are required to carry valid travel insurance. This insurance must contain emergency medical and evacuation coverage of at least \$100,000. For Poseidon Expeditions' 2015 and 2016 Arctic voyages, this emergency medical and evacuation insurance is included in the ticket price (those over the age of 85 must purchase this insurance separately).
